

110 Cross Connect Accessories

Category 5e 110 Field Terminated Patch Plugs

Custom length patch cords can be easily assembled with Hubbell 110 snap fit patch plugs. The 110 patch plug utilizes internal pair isolation to provide improved crosstalk performance so that the mated plug and connecting block exceed Category 5e transmission performance. Each plug housing also includes built-in polarization to ensure proper connection with 110 wiring blocks.

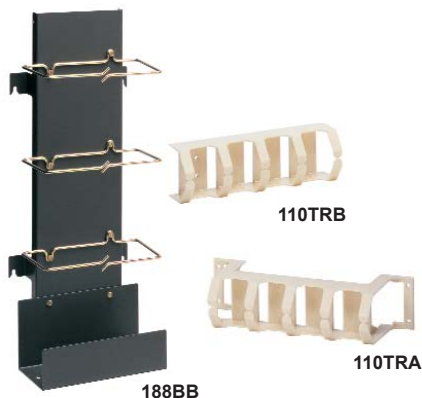

| Description | Catalog No. |
|-----------------------|------------------|
| 4-pair 110 patch plug | 110FPP4PR |
| 2-pair 110 patch plug | 110FPP2PR |
| 1-pair 110 patch plug | 110FPP1PR |

Category 5e 110 Factory Terminated Patch Cords

Hubbell's 110 to 110 and 110 to 8-position RJ45 modular patch cords provide modularity and quick termination to 110 connecting blocks. These cords incorporate a pair isolation/crosstalk elimination technique within the plug to provide superior performance.

Wiring Troughs and Cable Management Backboard

Hubbell's wiring troughs provide horizontal patch cord management to complete a 110 and 6-110 cross connect solution. Jumper troughs are available with or without standoff legs and are installed between wiring blocks in the cross connect. The metal cable management backboard is used in between wiring blocks for vertical cable management and patch cord storage.
