

ZoneFlex P300

Bridge

Outdoor 2x2:2 5GHz 802.11ac point-to-point/multipoint bridge for long range backhaul

Outdoor

ZoneFlex T710

Outdoor

Outdoor 4x4:4 2.4GHz/5GHz 802.11ac Wave 2 performance, enterprise/carrier class IP67 rated access point supporting MU-MIMO for high-density deployments.

ZoneFlex T300

Outdoor

Outdoor 2x2:2 2.4/5GHz 802.11ac access points for performance in high-density deployments

ZoneFlex R710

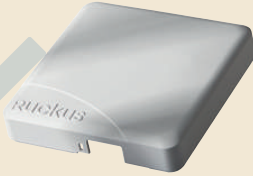

Indoor

Indoor 4x4:4 2.4/5GHz 802.11ac access point with Multi-User MIMO (MU-MIMO) support for superior performance in high-density deployments

ZoneFlex R600

Indoor

Indoor 3x3:3 2.4/5GHz 802.11ac high performance, mid-range access point for medium density venues

ZoneFlex R510

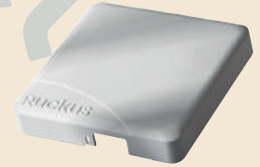

Indoor

Indoor 2x2:2 2.4/5GHz 802.11ac Wave 2 mid-range enterprise access point, supporting MU-MIMO and BeamFlex+.

ZoneFlex R500

Indoor

Indoor 2x2:2 2.4/5GHz 802.11ac mid-range access point, ideal for wireless networks servicing mobile devices with dual-polarized antennas

ZoneFlex R310

Indoor

Indoor 2x2:2 2.4/5GHz 802.11ac high performance, entry-level access point for low density venues

ZoneFlex R300

Indoor

Indoor 2x2:2 2.4/5GHz 802.11n access point

ZoneFlex H500

Indoor

Multiservice 2x2:2 2.4/5GHz 802.11ac concurrent wired/wireless wall switch

ZoneDirector Controllers

Central wireless LAN controllers supporting from 6 to 1,000 Ruckus APs

SmartZone Controllers

Industry's most scalable and versatile WLAN platform

Virtual SmartZone

Linux-based remote Wi-Fi system management software

Cloudpath

Cloudpath creates a Set-It-And-Forget-It Wi-Fi experience that allows BYOD to be adopted in a scalable, secure, and user-friendly manner

SPoT

Cloud-based Smart Wi-Fi location-based services (LBS) user positioning technology suite and API
