Unique. Stackable. Flexible. Powerful.
We have it all.

The time has come for Allied Telesis unique stackable solutions. Our 1RU x900 switches are the most flexible on the market, and our innovative SwitchBlade® x908 switch is an extraordinarily versatile stackable mini-chassis.

» Get total flexibility and future proofing with our extensive range of expansion modules

» Get 160Gbps stacking bandwidth with the rear stacking ports on the SwitchBlade x908

» Enjoy an industry standard CLI with the new AlliedWare Plus™ operating system

» Ensure the highly resilient core that your network needs
