Lindy Power Cables are high quality, reliable power delivery connections for use in a wide variety of professional and home environments.

This cable is ideal for the connection between computers, monitors, printers, projectors and many more devices with IEC C14 ports and the English electricity grid. Therefore, it is perfect for use in offices, control rooms, digital signage and home theatre setups.

The angled IEC C13 connector is ideally suited for small and narrow installations as mounting racks with limited space at the back.

The brass used in the connectors has a lead content of far below 0.1% and is therefore SVHC-free, as are all other materials used in these cables.

Please note that this cable is for use in dry areas only.

UK 3 Pin to IEC C13 Angled Mains Cables are available in the following lengths: 1m, 2m and 3m.
