

BN-FS-1163P2G1S

16 Ports 10/100Mbps PoE Switch with 2Gigabit RJ45 and 1 SFP Uplink

beek

Key Features:

Ports: Provide 16*10/100Mbps PoE ports and 2 *1000Mbps Uplink and 1*1000Mbps SFP port

PoE Standard: IEEE802.3af/at Power over Ethernet (PoE) Compliant

Total Power: Total power budget of 200W and 30W for all single PoE ports

AI Mode: automated PD monitoring and real-time PoE status.

Extend Mode: Extend PoE up to 250m on one single cable

VLAN Mode: features port-based VLAN function that helps to prevent the IP camera's multicast or broadcast storm from influencing each other.

Wide Application: Designed for Wifi AP and IP Security camera.VoIP etc

Surge protection: Protect the device from lightning surges and others electrical hazards

Versatile PoE Port

Featuring 16* 10/100Mbps PoE ports which support IEEE802.3af/at standard and 2 * 1000Mbps Uplink and 1 SFP ports. This PoE switch provides Maximum power budget of 200W and 30W for single PoE ports respectively, allowing users to have several different Networking products configured

AI Mode Powered Device Alive Check

The PoE Switch adopts not only PoE technology, but also automated PD monitoring and real-time PoE status. It also will greatly enhance the network reliability in that the PoE port will reset the PD power, thus reducing administrator's management burden.

Flexible Extend Mode

With the extend mode, the PoE Switch Series is able to offer more flexible choices for long range transmission, extending the distance up to 250m, which is greatly helpful to bring better user experience.

VLAN Mode

The "VLAN" operation mode features port-based VLAN function that helps to prevent the IP camera's multicast or broadcast storm from influencing each other.
