

# Data Communication

Creating a connection between two interfaces is no longer a problem with the ATEN range of reliable cost-efficient, bi-directional converters. These are extremely useful in situations where the only port available uses an interface that is different from the device you need to connect to. In addition, there are some not-so-common standards that a converter can easily access which might otherwise be impossible or too expensive to consider. ATEN's range of converters has been designed to provide simple solutions to the problems of data loss and conversion difficulties.

We offer a wide range of auto switches and interface converters which include serial PCI cards and parallel line extenders. The Bitronics-capable models allow you to take advantage of enhanced parallel port features, such as bi-directional communication, higher data throughput, and printer control from the keyboard.

- **Auto Switch**  
Share peripherals between computers.
- **Printer Network**  
Simultaneous printing capability.
- **RS-232 to RS-485/RS-422 Bi-directional Converter**  
Data transmission controlled by the RTS signal.
- **Serial / Parallel Converter**  
Automatically adjusts signal strength to compensate for distance.
- **Serial PCI Card**

RS-232/RS-422/RS-485 converters and extenders are heavily represented in many enterprise fields.

- Telecommunications industry
- Auto-teller machines
- Airport check-in and flight schedule display systems
- Automatic postal machines

# Data Communication

## AF142 ParaHub

- Shares peripherals between computers
- Reversible operation for 1-in-2-out or 2-in-1-out
- Transfers files between computers
- Supports IEEE-1284 nibble mode
- Print job management is first come, first served
- Supports broadcast mode
- Selects ports by button and software code operation
- Non-powered
- HP Laser Jet, Canon, Epson and NEC Compatible

## AF241 ParaHub

- Shares peripherals between computers
- Transfers files between computers
- Supports IEEE-1284 nibble mode
- Print job management is first come, first served
- Selects ports by button and software code operation
- Non-powered
- HP Laser Jet, Canon, Epson and NEC Compatible

## AS8144B Bitronics Auto Switch

- Bi-tronics and Centronics compatible
- Reversible operation for 1-in-4-out or 4-in-1-out
- Supports IEEE-1284 nibble mode
- Print job management is first come, first served
- Supports broadcast mode
- Selects ports by button and software code operation
- Non-powered
- HP Laser Jet, Canon, Epson and NEC Compatible

## AS248 Printer Network

- At least 24 PCs can share 8 Centronics printers with the AS248 network by means of 4-wire phone lines
- Simultaneous printing capability
- Works in bus/star/tree topologies
- Data transfer rate: 22 Kbytes per second
- Cable distance of up to 366 m (1200 ft)
- Easy Installation
- Selects printers by software code operation
- Non-powered

## Setup (AF142)

## Setup (AF241)

## Setup (AS8144B)

## Setup (AS248)

## Accessories

1.

1. RJ116 Cable x 1 (AS248)

# Data Communication

**IC485S**  
**RS-232/RS-485**  
**Interface Converter**  
Monitor Configuration Support

- Data transmission controlled by the RTS signal
- DCE / DTE selectable
- Point-to-point, multidrop, and simplex/duplex link selection
- Four wire full duplex; two wire half duplex
- Compact size
- Cable distance up to 1200 m
- Monitor configuration support
- Supports baud rates up to 115.2kbps

**IC485SI**  
**RS-232/RS-485**  
**Interface Converter**  
Signal and Power Isolation Support

- Data transmission controlled by the RTS signal
- DCE / DTE selectable
- Point-to-point, multidrop, and simplex/duplex link selection
- Four wire full duplex; two wire half duplex
- Compact size
- Cable distance up to 1200 m
- Signal and power isolation
- Supports baud rates up to 115.2kbps

**IC485SN**  
**RS-232/RS-485**  
**Interface Converter**  
Non-Powered Operation

- Data transmission controlled by the RTS signal
- DCE / DTE selectable
- Point-to-point, multidrop, and simplex/duplex link selection
- Four wire full duplex; two wire half duplex
- Compact size
- Cable distance up to 1200 m
- Non-powered operation
- Supports baud rates up to 115.2kbps

**IC485AI**  
**RS-232 to RS-485/RS-485**  
**Bidirectional Converter**

- Automatic internal RS-485 bus supervision
- No external flow control signals for RS-485 required
- Transient suppression on RS-485 data lines
- DCE / DTE selectable
- Point-to-point, multidrop, and simplex operating modes
- Four wire full duplex; two wire half duplex
- LEDs for easy status monitoring
- Minimum 2000V isolation protection
- Compact size
- Cable distance up to 1200 m
- Supports baud rates up to 115.2kbps

Scheduled for **Q2** Release

**IC485ZB**  
**Serial-to-ZigBee Converter**

- Provides a wireless link for RS-232, RS-422, and RS-485 serial data signals
- IEEE 802.15.4 Zigbee compliant
- Transmission range up to 100 m (Indoor/Urban) / 350 m (Outdoor Line-of-sight)
- Virtual COM port support – enables connected devices as if they were directly connected to a COM port on the local computer
- Supports an over-the-air data rate of 250 kbps
- Supports baud rates up to 115.2Kbps (non-standard baud rates may also be supported)
- 2.4Ghz ISM band radio frequency
- 16 Direct Sequence Software Selectable Channels
- Point-to-point and Point-to-multipoint network topologies supported
- Repeater mode extends range up to 700 m

**SXP320A**  
**RS-232/Centronics**  
**Bidirectional Serial/Parallel Converter**

- DIP switch for direction setting
- Both hardware and XON/XOFF handshaking
- Easy installation
- Compact size

### SXP325A Bidirectional Serial/Parallel Converter

- DIP switch for direction setting
- Both hardware and XON/XOFF handshaking
- Built-in buffer for efficient operation
- Easy installation
- Compact size

### SXP500 RS-232/Parallel High Speed Bidirectional Converter 1.8 m Cable Built-in

- DIP switch for direction setting
- Both hardware and XON/XOFF handshaking
- Non-powered
- Easy installation
- Compact size
- Built-in 1.8 m cable

### IC150 RS-232 Line Driver

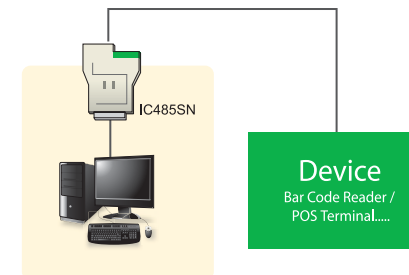

- DCE/DTE switch selectable
- Full Duplex / Simplex Switch Selectable
- Analog loop back
- Non-powered
- Compact size

### IC164 Non-Powered / High Speed Parallel Data Extender

- Non-powered
- Easy to install and operate
- Compact size
- Cable distance up to 400 m

### Setup (IC485SN)

### Setup (SXP500)

### Accessories

1. Power Adapters: DC9V x 1 (IC485S, IC485SI, IC485AI); AC9V x 1 (SXP320A, SXP325A)
2. RJ1116 Cable x 1 (IC164)
3. Software CD x 1 (IC485ZB)
4. USB Cable x 1 (IC485ZB)

# Data Communication

**IC-1025**  
**RS-232 2-Port PCI card**

- Fully compliant with PCI Spec. Ver2.2 standard
- Supports both 64-bit & 32-bit PCI Bus and 3.3V & 5V connector keys
- High-speed serial port supports baud rates up to 921.6Kbps
- High-tech 128K FIFO can reduce CPU loading, interrupting and improving system performance dramatically
- Plug and Play, I/O address and IRQ assigned by BIOS
- Works with various types of DB9M / DB25M serial devices
- Ready for the Intel® Itanium® and AMD® Athlon® 64R 64-bit CPU on the Microsoft Windows® XP 64-bit Edition Version 2003 and Windows® Sever 2003 for 64-bit Itanium based or Extended Systems
- Ideal for 56K V.90 external modems, ISDN terminal adapters, PDA, UPS, barcode scanners, and other high-speed serial port devices
- Supports Microsoft Windows NT, 2000, XP, Vista, 2003, DOS, and Linux

**IC-104S**  
**RS-232 4-Port PCI card**

- Fully compliant with PCI Spec. Ver2.2 standard
- Supports both 64-bit & 32-bit PCI Bus and 3.3V & 5V connector keys
- High-speed serial port supports baud rates up to 921.6Kbps
- High-tech 128K FIFO can reduce CPU loading, interrupting and improving system performance dramatically
- Plug and Play, I/O address and IRQ assigned by BIOS
- Works with various types of DB9M / DB25M serial devices
- Ready for the Intel® Itanium® and AMD® Athlon® 64R 64-bit CPU on the Microsoft Windows® XP 64-bit Edition Version 2003 and Windows® Sever 2003 for 64-bit Itanium based or Extended Systems
- Ideal for 56K V.90 external modems, ISDN terminal adapters, PDA, UPS, barcode scanners, and other high-speed serial port devices
- Supports Microsoft Windows NT, 2000, XP, Vista, 2003, DOS, and Linux

**IC-108S**  
**RS-232 8-Port PCI card**

- Fully compliant with PCI Spec. Ver2.2 standard
- Supports both 64-bit & 32-bit PCI Bus and 3.3V & 5V connector keys
- High-speed serial port supports baud rates up to 921.6Kbps
- High-tech 128K FIFO can reduce CPU loading, interrupting and improving system performance dramatically
- Plug and Play, I/O address and IRQ assigned by BIOS
- Works with various types of DB9M / DB25M serial devices
- Ready for the Intel® Itanium® and AMD® Athlon® 64R 64-bit CPU on the Microsoft Windows® XP 64-bit Edition Version 2003 and Windows® Sever 2003 for 64-bit Itanium based or Extended Systems
- Ideal for 56K V.90 external modems, ISDN terminal adapters, PDA, UPS, barcode scanners, and other high-speed serial port devices
- Supports Microsoft Windows NT, 2000, XP, Vista, 2003, DOS, and Linux

**IC-104SA**  
**RS-232 4-Port PCI card**

- Fully compliant with PCI Spec. Ver2.2 standard
- Supports both 64-bit & 32-bit PCI Bus and 3.3V & 5V connector keys
- High-speed serial port supports baud rates up to 921.6Kbps
- High-tech 128K FIFO can reduce CPU loading, interrupting and improving system performance dramatically
- Plug and Play, I/O address and IRQ assigned by BIOS
- Works with various types of DB9M / DB25M serial devices
- Assign serial ports Re-Map to ISA address 3F8, 3E8, 2F8, 2E8 under DOS, NT operation system for special devices working on COM1 and COM2
- Ready for the Intel® Itanium® and AMD® Athlon® 64R 64-bit CPU on the Microsoft Windows® XP 64-bit Edition Version 2003 and Windows® Sever 2003 for 64-bit Itanium- based or Extended Systems
- Ideal for 56K V.90 external modems, ISDN terminal adapters, PDA, UPS, barcode scanners, and other high-speed serial port devices
- Supports Microsoft Windows NT, 2000, XP, Vista, 2003, DOS, and Linux
