

Corporate // Meeting Room

Optoma | Taiwan

Optoma corporate headquarters decided to renovate its meeting room with a high-performance presentation and conferencing system. They wanted to showcase their own high definition audio-visual equipment in the best possible light. Consequently, Optoma turned to its technology partner, ATEN, for help proving a connectivity solution.

Challenges

Cover all of their daily meeting room activities without the need of multiple remote controls.

Easily switch between video sources while splitting audio to a separate audio system.

Presentations had to be shared locally on multiple screens and remotely via video conferencing.

Solutions

Control System
VK2100

Video Matrix Switches
VM5404H

Video Extender
VE801

Video Converter
VC880
VC182

USB Extender
UEH4002

Benefits

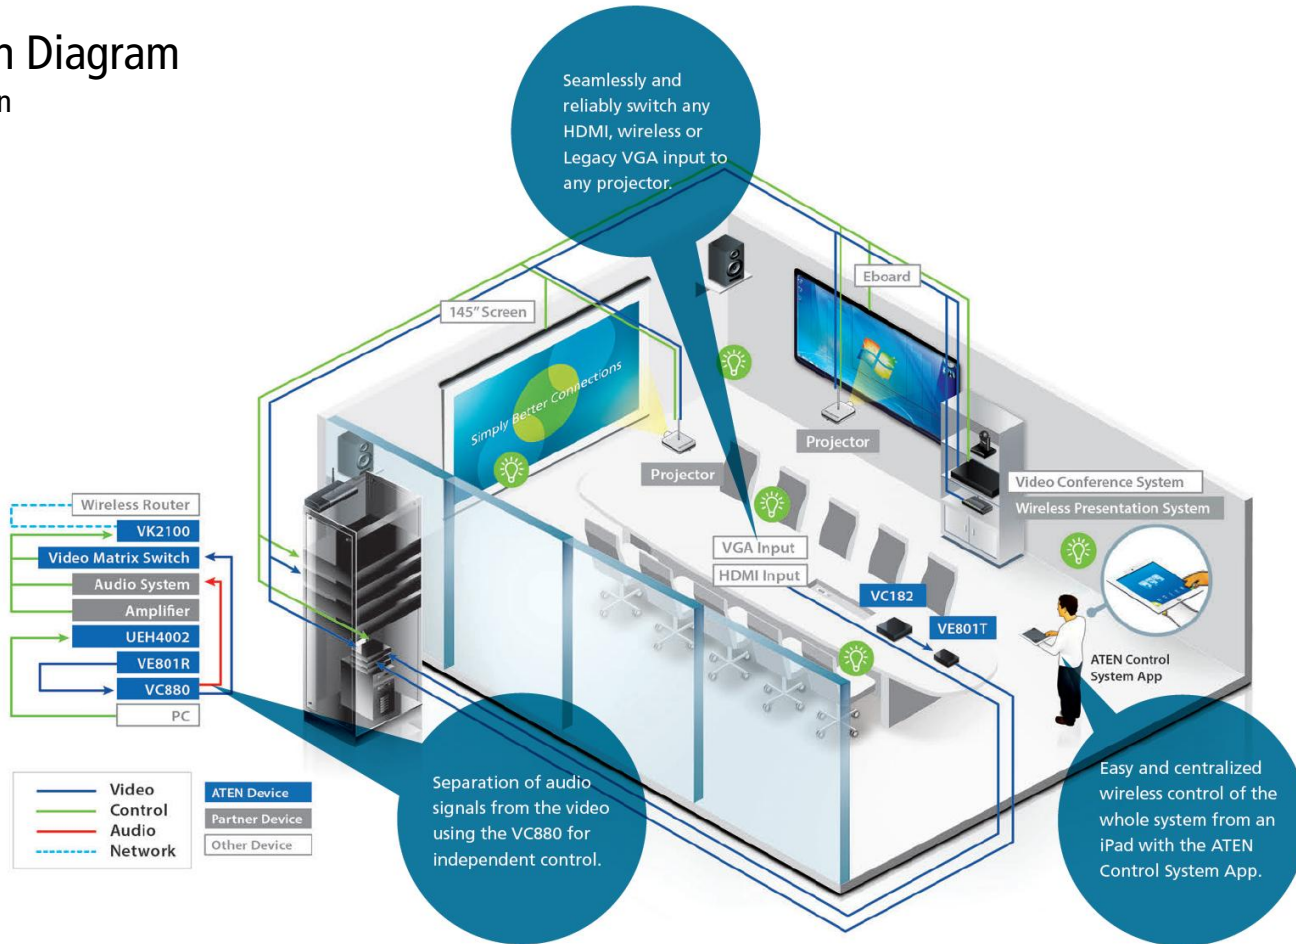

IR control simplification by using ATEN Controller to turn devices ON/OFF and lighting control to quickly adapt to each situation letting the user control the room effortlessly.

Optoma is now able to separate the Audio through ATEN VC880 for a more flexible Audio configuration.

Fully customized UI for Optoma.
