Share from your notebook in 3 steps

1. You connect the receiver to your TV/touch panel.

2. Connect the transmitter to your PC's USB and HDMI port. The transmitter and receiver automatically establish a connection.

3. Then press the connect button on the transmitter to start transmitting your screen contents.

iOS

Connect your smartphone/tablet with the receiver via Wi-Fi. Then open screen synchronization and select the receiver as output device. As long as the receiver and iOS device are connected to the same network beforehand, you can share your content directly via screen synchronization.

Android

With activated WLAN, access the Sharing/Cast/Display Sync function (share screen) of your mobile device and then select the receiver as the output device in order to share your content.

Share content easily from your mobile device

Click & Present Pro - Wireless Collaboration System

Package content:

- 1x Receiver unit
- 2x HDMI transmitter
- 1x USB charging adapter (10W, 5V/2A)
- 1x Storage tray for HDMI transmitter
- 1x Micro USB cable, 1.5 m
- 1x HDMI cable, 1.15 m
- 1x USB adapter (USB-A, jack - USB-C™, plug)
- 1x User manual

Description

The Wireless Collaboration System from DIGITUS® brings together all your devices (notebook, tablet, smartphone) and offers a hardware-based presentation solution for wireless transfer of screen content for meeting and conference rooms.

Up to 30 participants can be connected with the receiver. Up to 4 participants can present/collaborate simultaneously in split screen. Notebooks can be connected with the HDMI transmitter, the set can be extended with additional transmitters (DS-55322). Share content conveniently from a tablet/smartphone using the sharing/cast func-

tion (iOS, iPadOS/Android) of your mobile device, to do so first connect your mobile device with the receiver (SSID) via WLAN.

The configuration of the system has been optimally simplified here - no additional software/apps are required. Increase the efficiency of your meetings, save time and achieve optimal results. **Share - Present - Collaborate.**

All information also in our online store.

Features

- Share, present and collaborate from your notebook, tablet or smartphone
- Easy installation - No software or app required
- Transmission distance: up to 50 m (unrestricted view)
