Lindy Power Cables are high quality, reliable power delivery connections for use in a wide variety of professional and home environments.

This cable is perfect for the connection between small devices, such as beamers, DVD-players, small household devices and many more with IEC C8 port and the European electricity grid. The Euro connector works in many European countries.

The brass used in the connectors has a lead content of far below 0.1% and is therefore SVHC-free, as are all other materials used in these cables.

Please note that this cable is for use in dry areas only.

Euro Mains Plug to IEC C7 Mains Cables are available in the following lengths: 2m, 3m and 5m.
