

9 Port HDMI Video Wall Scaler

No.: 38261

Generate a 3x3 video wall from a 4K HDMI Signal

Description

- Scale a single HDMI input across up to 9 displays
- Create 13 different video wall layouts with a single unit
- Supports input resolutions of up to 3840x2160@30Hz
- Compose a video wall without any control software
- 2 year warranty

The 9 Port HDMI Video Wall Scaler allows a 4K HDMI input source to be arranged on 9 displays in a variety of configurations. The 4k input is divided up into four signals and sent to each display at 1080p creating the perfect digital signage or entertainment solution.

The unit features a HDMI input connection which allows one unique source to be used as well as HDMI audio extraction via the 3.5mm Stereo audio output.

This unit has been developed for use in installations which require maximum impact, such as retail, advertising and hospitality. Multiple video wall presets and adjustable picture options means the Scaler can deliver stunning video wall layouts.

Create even bigger Video Walls by combining two units together via HDMI for layouts up to 3x4 or 4x4.
