CS62 / CS62S

ATEN®
Simply Better Connections™
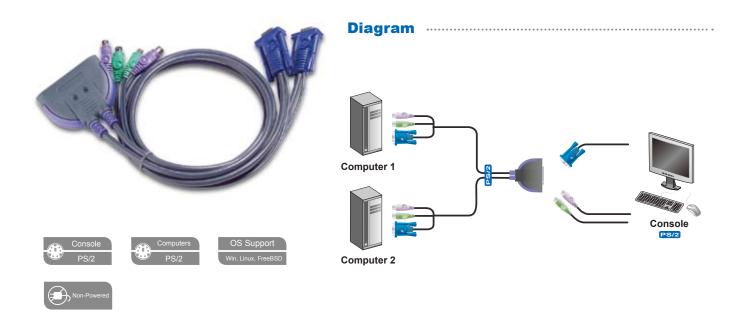

2-Port PS/2 KVM Switch

The CS62/CS62S Switch is a control unit that allows access to two computer systems from a single console (keyboard, monitor, and mouse). The CS62/CS62S improves on previous models with a 50% smaller desktop footprint plus attached custom KVM cables for hassle-free installation and a neat and tidy workspace.

Setup is fast and easy; plugging cables into their appropriate ports is all that is entailed. There is no software to configure, no installation routines, and no incompatibility problems.
